

## **HUBLONET: ANTI-FOGGING PRODUCT**

*High-performance, anti-fogging product, used to prevent the formation of condensation. Acts directly on the surface to be treated by reducing its surface tension, leaving no residues or deposits.*

### **USERS:**

### **CHARACTERISTICS:**

- Colour: colourless
- Density 20°C: ~1 g/cm<sup>3</sup>
- Water-soluble
- Biodegradable

### **ADVANTAGES:**

- Prevents the formation of condensation effectively by reducing the surface tension of the glass
- Effective even in swimming pools
- Cost-effective
- Leaves the surface of the glass free of any residue or varnish – does not modify colours
- Easy to apply
- Non-irritant (under normal use conditions)
- Biodegradable

### **METHOD OF USE:**

- Spray HubloNet on the surface to be treated
- Spread evenly with a finger over the whole surface of the glass
- Rinse or dry with a piece of cotton wool
- Apply after each use

### **PACKAGING:**

- 500 ml bottle
  - 5l can of environmentally friendly refill
- Plexiglass display shelves available for business organisations

### **USE PRECAUTIONS:**

*This product must be applied to masks before use: never spray the product in the eyes; avoid all direct contact with the eyes.*

*The product must be rinsed or wiped off before placing the mask on the face.*

*Product not considered hazardous within the meaning of current regulations.  
For further information, please refer to the safety data sheet.*
